

## POSTAL IS TO ENTER NEVADA

RELIEF FROM W. U. TEL. CO. IS IN SIGHT. MACKAY WILL BRING COMPETING LINE WITH UP TO DATE MEHODS—DAYS OF INADEQUATE SERVICE NEARLY OVER.

CLARENCE W. MACKAY, who recently gave \$100,000 to the Nevada State University for the construction of a building and who is now having a statue of his father, John Mackay, sculptured by Gutzon Borglum, will leave New York for Nevada the latter part of December to travel the Mackay route and to also visit the great mining camps of Southern Nevada for the purpose of arranging for the Postal Telegraph service in this state. Mr. Mackay has given out the information that there is a great demand for a better telegraphic service in Nevada and that he intends to enter the Nevada fields with the postal. Clarence Mackay will visit all of the larger towns of the Nevada mining district and arrange to have the Postal service continued from Salt Lake, through Nevada to Sacramento. By this line through Nevada the Postal service will have connections direct across the continent from New York to San Francisco.

Mackay will travel from New York to Reno in a special car and will be accompanied by a number of friends and the officers of the Postal Telegraph company. After visiting the statue of John Mackay in Reno, his party will go into the mining camps of Tonopah, Goldfield, Bullfrog and Manzanita. This will be Mackay's first trip into the new districts of Nevada.

## GROVES CAPTURED AT ELY

RENO, Oct. 5.—Tex Rickard makes his money easy and he parts with it when a friend is in need. When Rickard was busy promoting the Gans Nelson fight at Goldfield he was met by Harry Groves, a sporting man from Ely, and the latter immediately showed his friendship for the man who made Goldfield famous by passing several bad checks.

Stealths of the desert copper camp have followed Groves since Rickard reported his loss and now the friend in need is also in need of counsel. He was caught in Salt Lake and will be returned to Ely for trial.

The details of this story leaked out when Rickard was in Reno Wednesday.

## FUNERAL OF W. H. HOOPES PIONEER STOCKMAN DEAD

The funeral of the late William Hoopes took place this afternoon from the residence of his son-in-law J. N. and was largely attended by friends of the deceased.

The beautiful burial service of the church was read by Rev. H. H. McCarty and the Presbyterian choir sweetly rendered the comforting hymns, "Nearer, My God, to Thee" and "Abide with Me."

Many floral tributes testified to the esteem of his friends and a long procession followed the body to the grave.

## BANQUET TO EXPLORER

SEATTLE, Oct. 5.—Captain Ronald Amundsen, discoverer of the Northwest passage, arrived from Sitka yesterday afternoon on the steamship Humboldt. He went to the Alaskan city to verify his calculations regarding the location of the magnetic pole and his work was successful. He was banquetted last night and will leave today to join his ship, the Glen at San Francisco.

Theodore Hawkins was down from Genoa today.

James Yerington and wife were rivals on this morning's train.

Dan Hawkins and bride are expected to return from Portland to morning.

## A RELIGIOUS STRIFE IN ANOTHER HOLD-UP IN SAN FRANCISCO

PARIS, Oct. 5.—The Catholics of Brittany have addressed an open letter to Interior Minister Clemenceau denouncing the statement which he made in his speech of Sunday last and adding:

"The Chouans are not dead. If you attempt to unite the Jacobins of 93; proscriber our priests or prevent the celebration of our sacred religion we will rise against the infamous tyranny and die with the enthusiasm for God and the king of our fathers."

BORN  
In Carson City, Nevada, October 5, 1896, to Mrs. A. B. Edmonds, a son.

## NEW FREIGHT DEPOT FOR TURNING BACK THE SALTON SEA

RENO, Oct. 5.—A new freight depot may be constructed by the Southern Pacific company at the corner of Bell street and Commercial Row. C. Jeff Brooks has sold two lots to the railroad corporation ostensibly for that purpose and he says the sale was made Sept. 20th. Brooks ascertained yesterday that the purchasing agent accompanied him to dinner the following Sunday and that then he was told the location of the purchase.

Land's Office and other have issued of their Ramsey claims at a good figure.

Rev. H. A. R. Ramsey and family returned this morning from California.

IMPERIAL, Cal., Oct. 5.—During the past week the works for turning the Colorado river back from Salton sea into its old channel, leading to the Gulf of California, have been standing a severe test of high water, which at times has been critical. For three days the water has been falling and the works are still intact. It was expected to turn the river about October 15 but there will probably be a few days delay on account of the high water. About a thousand men are engaged in the task with immense railroad and machinery equipment.

District Judge, Third District  
PETER BREEN  
Eureka County  
District Judge, Fourth District  
GEORGE W. BROWN  
Elko County

1.—The Democrats and Silver men of Nevada rejoice in the nation's continued prosperity, in the abundant crops, the goodly yield of the mines, the full employment of labor, and the favorable balance of foreign trade. But we deplore the manner in which this vast increase of wealth, produced by the energy and industry of all our people, is more and more concentrated into the hands of a few as the inevitable consequence of the inadequate laws of special privileges, or gigantic monopolies in the necessities of life, and the control of all the sources of legislation by the alliance between organized politics and organized wealth.

2.—We favor the election of United States Senators by direct vote of the people.

3.—We favor a careful well considered revision of tariff schedules, which shall aim at the reduction or total removal of the duties on articles of American manufacture sold more cheaply in foreign countries than at home, and which shall deprive industrial monopolies of the power to exploit both producers and consumers by arbitrary methods and prices.

4.—We favor the election of United States Senators by direct vote of the people.

5.—We favor the election of United States Senators by direct vote of the people.

6.—We favor the election of United States Senators by direct vote of the people.

7.—We favor the election of United States Senators by direct vote of the people.

8.—We favor the election of United States Senators by direct vote of the people.

9.—We favor the election of United States Senators by direct vote of the people.

10.—We favor the election of United States Senators by direct vote of the people.

11.—We favor the election of United States Senators by direct vote of the people.

12.—We favor the election of United States Senators by direct vote of the people.

wise to fill the vacancies as may be deemed best.

13.—We demand that the United States mint at Carson City be opened for the coinage of gold and silver according to law.

14.—We are in favor of indicating in the most positive terms to all railroads traversing our state that we expect and demand the establishment by each of them of a terminal point in Nevada, in conformity with the State Commerce Law.

15.—We believe that the interests of capital and labor are interdependent and pledge ourselves to do all that lies in our power by means of legislation and other legitimate methods to foster and protect their interests.

16.—We believe that laboring men should be encouraged, and given the greater freedom to organize and combine for the betterment and protection of their social, educational and financial condition, and for the purpose of securing for themselves fair wages and working hours. As we have done in the past we shall also do in the future, encourage the adoption of the eight hour laboring day in all occupations where it is reasonable and appropriate, and extend it by legislation to all occupations wherein the constitution will permit.

17.—We stand for the fullest protection of capital and of vested property interests and shall endeavor to encourage the greatest possible investment of outside and local capital in our state, by careful and liberal legislation in its protection and by impartial administration of existing laws.

18.—The election of 1906 will be the prelude of the great presidential struggle of 1908. The democratic standard bearer of two years hence is at ready nomination in the hearts of the American people. Twice before the people of Nevada have given an overwhelming majority to their votes to the great leader and statesman whom destiny has clearly marked as the next President of the United States. In this next campaign we are fighting his battle, as through ten weary years he has fought a battle of Nevada. If Nevada would pay her just debt of gratitude to one who has fought the fight, and kept the faith, if Nevada would see the aspirations of her people triumphant two years hence, she will make sure of a democratic victory in November next, and thereby express in unmistakable terms her confidence in the leadership, the character and the wisdom of William Jennings Bryan.

19.—We commend with pride and satisfaction the able and effective work of our Senator, United States Senator, Francis G. Newlands. The great irrigation law with which his name will be forever identified, is working a marvelous transformation in the social and economic life of sixteen states and territories and supplying new hope to millions of American citizens who will obtain new homes under its beneficent operation.

20.—We are earnestly in favor of the creation by law of the office of bank inspector to the end that the depositors of money in such institutions may be adequately protected.

21.—We believe that legislation should at all times be passed with a view to the comfort and safety of the working man; and to that end it is urged that suitable laws be enacted by the next legislature of the state providing for a mine inspector who shall inspect all mines, adits, tunnels, shafts, etc., and keep all the works up to a standard to be fixed by law.

22.—In the rapid upbuilding now going on in our State it is extremely important that ample provision shall be made for public school instruction. For long the schools, outside of larger towns, have drifted on without adequate supervision, and apparently with an effort on the part of the educational department to provide a definite course of study or to introduce practical lines of work on a systematic basis. We favor a practical state course of study, thorough supervision, county and state, funds for the schools and liberal salaries for the teachers.

23.—The State University should receive special attention. It is urgently urged that our young men and women be given liberal appropriations for their support, and such legislation as will place and keep it at all times on a cash basis. The university should be kept at all times on of politics, and, with that end in view, we favor the nomination of but two of the four regents to be chosen at the coming election, one for the long term and one for the short term, at the same time authorizing the state Central Committee to fill the vacancies upon the ticket from the candidates selected by the republican party, if that party take similar action, other

24.—We favor the election of United States Senators by direct vote of the people.
